

Q.1)-The first generations of computers were based upon

- Transistors
- ICs
- Valves
- Conductors

Q.2)-Computer components are cooled by

- Power Supply
- Mother board
- monitor
- Fan

Q.3)-He is known as the father of computers

- Herman Hollerith
- Grace Hoppers
- Charles Babbage
- Newton

Q.4)-In programming, you use the following keys

- Arrow keys

- Function keys
- Alpha keys
- Num keys

Q.5)-The number of keys in a keyboard

- 100
- 88
- 101
- 110

Q.6)-With CD you can

- Read
- Write
- Both a and b
- None of these

Q.7)-Laser printer is a device which

- Input
- output
- Both a and b

Q.8)-With digital camera you can store

- Text
- pictures
- Both a and b
- None of these

Q.9)-In MICR C stands for

- Color
- code
- character
- coding

Q.10)-Track ball has a

- Ball
- track
- football
- none of these

Q.11)-Hard disk is

- Removable
- Fixed
- both a and b
- none of these

Q.12)-A CD can hold approximately how much of data

- 200 MB
- 700 MB
- 1000 MB
- 2000 MB

Q.13)-Who is known as the first programmer?

- Lady Lovelace

- Charles Babbage
- Herman Hollerith
- Blaise Pascal

Q.14)-Which are the main types of software™s â€|â€| System, utility and

- Application
- New
- Computer
- complex

Q.15)-Real Time Operating system is a following type of software

- Application software
- Operating system
- Commercial software
- Utility software

Q.16)-Compression tools compress data on

- Hard drive
- Floppy disk
- both a and b
- none of these

Q.17)-Debugging tools are there to debug errors on

- Printers
- keyboards
- programs

- language

Q.18)-Data, Information are the raw facts from which Knowledge is derived

- Data , Information
- Data , output
- Input , Information
- Output, information

Q.19)-There are two basic types of disks-floppy disk and

- Low disk
- Hard disk
- soft disk
- None of these

Q.20)-Printed copy is often called

- soft copy
- blank copy
- hard copy
- write copy
